

Digital Flocculator Six Jar Test

Product Description

Electric stirrer is an ideal tool for petroleum, chemical industry, medicine and health, environmental protection, biochemical laboratory, analysis room, education and scientific research. The type of electric stirrer adopts permanent magnet dc motor, uses the advanced power steady speed circuit, stable speed, large power, low noise, speed adjustable, don't need to replace carbon brush.

Product features:

- ① For laboratory dispersion and mixing;
- ② Easy to operate and easy to maintain;
- ③ Large capacity, high quality;
- ④ The design is simple, easy to use.
- ⑤ The height of table top can be adjusted according to the requirements.

Type No.	SPJJ-3
Power supply	220V 50HZ 110V 60HZ
Speed control	Separate control
Power	80W*6
Speed range	0-3000r/min(Stepless adjustable)
Time range	0-120min or normally open
